

# Our Action Plan 2025-26

## Biodiversity

### Aim

- Create a school grounds full of plants and wildlife.
- Help children learn about and explore nature.
- Encourage everyone to care for the environment.
- Make our outdoor spaces healthier and more wildlife-friendly.
- Provide safe habitats for animals, insects, and plants.
- Create a calm, happy place to learn and play.

### Actions

1. Create a pond on school grounds through a grant application - autumn and summer terms.
2. Create bird boxes and bug hotels - spring and summer terms.
3. Participate in the Big Schools' Birdwatch and Big Garden Birdwatch - spring term.

# Our Action Plan 2025-26

## Energy

### Aim

- Help everyone understand why saving energy is important.
- Learn how energy use affects our planet.
- Encourage simple energy-saving habits at school and at home.
- Reduce our school's carbon footprint and energy costs.
- Build lifelong habits that help the environment.
- Support families to save energy at home.

### Actions

1. Participate in the 'Cut Your Carbon' campaign - autumn term.
2. Create traffic light system to remind children and staff to turn off electrical devices - autumn term.

# Our Action Plan 2025-26

## Marine

### Aim

- Help everyone learn about marine pollution and its effects.
- Understand how pollution harms our oceans and wildlife.
- Encourage actions that reduce waste and protect the sea.
- Promote sustainable choices that help the environment.
- Work together to keep our oceans healthy for the future.

### Actions

1. Participate in creating artworks to raise awareness of plastic pollution - autumn term.
2. Participate in the 'Big Plastic Count 2026' - spring term.
- 3: Organise an Eco-Warrior beach clean - summer term.
